INDEX

ABSORPTION of various fatty acids by the rat, rate of 373
Acid, pantothenic. Quantitative study of vitamins in the rumen content of sheep and cows fed vitamin-low diets. IV 405
Acid, pantothenic, content of eggs, effect of diet on 201
Acid, pantothenic, distribution of, in certain products of natural origin 193
Acid, pantothenic, requirement of mouse for, and for new factor of vitamin B complex 609
Acid, phytic, yeast nucleic acid, soybean phosphatides and inorganic salts as sources of phosphorus for bone calcification 213
Acid, yeast nucleic, phytic acid, soybean phosphatides and inorganic salts as sources of phosphorus for bone calcification 213
Acids, amino, specific dynamic effects of, and their bearing on the causes of specific dynamic effects of proteins 257
Acids, organic, and salts, certain, with particular reference to their effect on ossification, biologic response of chickens to 515
Acids, various fatty, rate of absorption of, by the rat 373
Acquisition of fluorine by mature teeth, on the manner of 35
Action, sparing, of thiamine on body tissue catabolism 445
Administration of l(—)histidine to the dog, heat production and blood and urine constituents after 25
Adult man, further experiments on the calcium requirement of, and the utilization of the calcium in milk 577
Adults, seven, balance studies on. Calcium requirement of man 565
Adults, utilization of the calcium of milk by 351
Age, given, calcium content of the normal growing body at 155
ALINE, DONNA E. See Snell, Esmond E. 201
ALMQUIST, HERMAN J. Chemical estimation of quality in animal protein concentrates 347
Amino acids, specific dynamic effects of, and their bearing on the causes of specific dynamic effects of proteins 257
Animal protein concentrates, chemical estimation of quality in 347
ANSBACHER, STEFAN. The bioassay of vitamin K 1
Anticataractogenic quality of certain proteins, effect of dry heat upon 115
ARMSTRONG, WALLACE D. See Perry, Mabel W. 35
ARMSTRONG, WILLIAMINA. See Breiter, Herta 351
ARMSTRONG, WILLIAMINA. See Outhouse, Julia 565
Arsenic and goiter 341
A.T.10 (dihydrotachysterol), effect of, on rickets in rats produced by high-calcium-low-phosphorus diets 147
Avitaminosis, B_1, analogous to Wernicke's disease of man. A deficiency disease of foxes produced by feeding fish 243

B_1 avitaminosis analogous to Wernicke's disease of man. A deficiency disease of foxes produced by feeding fish 243
BACHMANN, GEORGE. See Haldi, John 307
Balance studies on seven adults. Calcium requirement of man 565
Balances, iron, on four normal preschool children 101
Basal food intake, effect of quantity of, upon the utilization of vitamin A 13
Basal metabolism and heat loss of young women at temperatures from 22°C. to 35°C. Clinical calorimetry no. 54 383
BAUMANN, CARL A., ELTON G. FOSTER AND PAUL S. LAVIK. The effect of certain carcinogens on vitamin A in the liver 431
BETHKE, ROLAND M. See Hunt, Charles H. 85
Bioassay of vitamin K 1
Biologic response of chickens to certain organic acids and salts with particular reference to their effect on ossification 515
BLATHERWICK, NORMAN R. See Rynbergen, Henderika J. 553
Blood and urine constituents, and heat production, after administration of l(—)histidine to the dog 25
Blood plasma, cattle, carotene and vitamin A in, with observations on reproductive performance at restricted levels of carotene intake .. 135
BODANSKY, MEYER, AND VIRGINIA B. DUFF. Effects of parathyroid deficiency and calcium and phosphorus of the diet on pregnant rats 179
BODANSKY, MEYER, AND VIRGINIA B. DUFF. Relation of parathyroid function and diet to the mineral composition of the bones in rats at the conclusion of pregnancy 235
Body, normal growing, at a given age, calcium content of 155
Body tissue catabolism, sparing action of thiamine on 445
BOELTER, MURIEL D. D., AND DAVID M. GREENBERG. Severe calcium deficiency in growing rats. I. Symptoms and pathology 61
BOELTER, MURIEL D. D., AND DAVID M. GREENBERG. Severe calcium deficiency in growing rats. II. Changes in chemical composition . 75

BOELTER, MURIEL D. D. See Kleiber, Max 363
Bone calcification, phytic acid, yeast nucleic acid, soybean phosphatides and inorganic salts as sources of phosphorus for 213
Bones in rats at conclusion of pregnancy, relation of parathyroid function and diet to mineral composition of 235
BREITER, HERTA, ROSALIND MILLS, JULIA DWIGHT, BEULA MCKEY, WILLIAMINA ARMSTRONG AND JULIA OUTHOUSE. The utilization of the calcium of milk by adults 351
BREITER, HERTA. See Outhouse, Julia 565
BRIWA, KATHRYN E., AND HENRY C. SHERMAN. The calcium content of the normal growing body at a given age 155
BUEL, FLORENCE. See Strouse, Solomon 599
BUNKFELDT, RUDOLF. See Krieger, Carl H. 213
BURROUGHS, EDWARD W. See Hunt, Charles H. 85

CAFFEINE, effect of various amounts of, on the gaseous exchange and the respiratory quotient in man 307
CAHILL, WILLIAM M. Urinary excretion of thiamine on high fat and high carbohydrate diets 411
Calcification, bone, phytic acid, yeast nucleic acid, soybean phosphatides and inorganic salts as sources of phosphorus for 213
Calcium and phosphorus, effect of, on metabolism of lead 541
Calcium and phosphorus of the diet, effects of parathyroid deficiency and, on pregnant rats 179
Calcium content of the normal growing body at a given age 155
Calcium deficiency, severe, in growing rats. I. Symptoms and pathology 61
Calcium deficiency, severe, in growing rats. II. Changes in chemical composition 75
Calcium (high)-low-phosphorus diets, effect of AT.10 (dihydrotachysterol) on rickets in rats produced by 147
Calcium in milk, utilization of, further experiments on the calcium requirement of adult man and ... 577
Calcium intake, optimal, life-time experiments upon the problem of 221
Calcium of milk, utilization of, by adults 351
Calcium requirement of adult man and the utilization of the calcium in milk, further experiments on ... 577
Calcium requirement of man: Balance studies on seven adults 565
Calorimetry, clinical, no. 54. Basal metabolism and heat loss of young women at temperatures from 22°C. to 35°C. 383
Carbohydrate, high, and high fat diets, urinary excretion of thiamine on 411
Carcinogens, effect of certain, on vitamin A in liver 431
CARLSON, WALTER E. See Greene, Robert G. 243
Carotene and vitamin A in cattle blood plasma with observations on reproductive performance at restricted levels of carotene intake 135
Casein and deaminized casein, effect of hydrolytic products of, on the cataractogenic action of galactose 125
Casein, lactalbumin, fibrin, edestin and gelatin in hemorrhagic degeneration in young rats, effect of supplementary choline, methionine and cystine and of 291
Catabolism, body tissue, sparing action of thiamine on 445
Catabolism, fasting, and food utilization of magnesium deficient rats 363
Cataractogenic action of galactose, effect of hydrolytic products of casein and deaminized casein on 125
Cattle blood plasma, carotene and vitamin A in, with observations on reproductive performance at restricted levels of carotene intake 135
Cattle, studies on riboflavin and thiamin in the rumen content of 85
Causes of specific dynamic effects of proteins, specific dynamic effects of amino acids and their bearing on 257
Cereals and rickets. XIII. Phytic acid, yeast nucleic acid, soybean phosphatides and inorganic salts as sources of phosphorus for bone calcification 213
CERECEDO, LEOPOLD R. See Sandza, Joseph G. 609
CHAMBERS, WILLIAM H. See Rynbergen, Henderika J. 553
Chemical composition, changes in. Severe calcium deficiency in growing rats. II 75
Chemical estimation of quality in animal protein concentrates 347
Chickens, biologic response of, to certain organic acids and salts with particular reference to their effect on ossification 515
Children, four normal pre-school, iron balances on 101
Children, four preschool, studies on vitamin C metabolism of 503
Children (school), group of, study of vitamin C nutrition in. Part II. Dietary evaluation 527
Choline metabolism. V. The effect of supplementary choline, methionine and cystine and of casein, lactalbumin, fibrin, edestin and gelatin in hemorrhagic degeneration in young rats 291
Choline metabolism. VII. Some dietary factors affecting the incidence and severity of hemorrhagic degeneration in young rats 617
Choline, methionine and cystine, effect of supplementary, and of casein, lactalbumin, fibrin, edestin and gelatin in hemorrhagic degeneration in young rats 291
CITRON, MARTIN M. See Sure, Barnett 453
Clinical calorimetry no. 54. Basal metabolism and heat loss of young women at temperatures from 22°C. to 35°C. 383
Cobalt in dogs on milk diets, a study of the need for 93
Cod liver oil, uncomplicated vitamin E deficiency in the rabbit and its relation to the toxicity of 225
COLOVOS, NICHOLAS F. See Lee, Robert C. 321
Complex, vitamin B, new factor of, requirement of mouse for pantothenic acid and for 609

Composition, chemical, changes in. Severe calcium deficiency in growing rats. II 75
Composition, mineral, of bones in rats at conclusion of pregnancy, relation of parathyroid function and diet to 235
Concentrates, animal protein, chemical estimation of quality in 347
CORRELL, JOHN T. The biologic response of chickens to certain organic acids and salts with particular reference to their effect on ossification 515
COUCH, JAMES R. See Snell, Esmond E. 201
COWGILL, GEORGE R. See Street, Harold R. 275
Cows, and sheep, fed vitamin-low diets, quantitative study of vitamins in the rumen contents of. III. Thiamin 163
Cows, and sheep, fed vitamin-low diets, quantitative study of vitamins in the rumen content of. IV. Pantothenic acid 405
Cystine, choline and methionine, effect of supplementary, and of casein, lactalbumin, fibrin, edestin and gelatin in hemorrhagic degeneration in young rats 291

DAVIS, RUSSELL E., AND LOUIS L. MADSEN. Carotene and vitamin A in cattle blood plasma with observations on reproductive performance at restricted levels of carotene intake 135
Deaminized casein, and casein, effect of hydrolytic products of, on the cataractogenic action of galactose 125
Deficiency disease of foxes produced by feeding fish. B_1 avitaminosis analogous to Wernicke's disease of man 243
Deficiency, parathyroid, and calcium and phosphorus of the diet on pregnant rats, effects of 179
Deficiency, severe calcium, in growing rats. I. Symptoms and pathology 61
Deficiency, severe calcium, in growing rats. II. Changes in chemical composition 75
Deficiency, uncomplicated vitamin E, in the rabbit and its relation to the toxicity of cod liver oil 225
Deficiency, vitamin A: A field study in Newfoundland and Labrador .. 461
Deficiency, vitamin B_6, in the dog, some observations of 275
Deficiency, vitamin, perosis due to ... 327
Deficient (magnesium) rats, fasting catabolism and food utilization of 363
Degeneration, hemorrhagic, in young rats, effect of supplementary choline, methionine and cystine and of casein, lactalbumin, fibrin, edestin and gelatin in 291
Degeneration, hemorrhagic, in young rats, some dietary factors affecting incidence and severity of 633
Depletion of tissue glycogen during fasting and fatigue and partial recovery without food 477
DEUEL, HARRY J., JR., LOIS HALLMAN AARON REIFMAN. The rate of absorption of various fatty acids by the rat 373
Diabetes, experimental, and diabetes mellitus, sodium and potassium salts in the treatment of 599
Diabetes mellitus, and experimental diabetes, sodium and potassium salts in the treatment of 599
DICHEK, MAURICE. See Sure, Barnett 445, 453
Diet, and parathyroid function, relation of, to mineral composition of bones in rats at conclusion of pregnancy 235
Diet, effect of, on the pantothenic acid content of eggs 201
Diet, effects of parathyroid deficiency and calcium and phosphorus of, on pregnant rats 179
Dietary evaluation (part II). A study of vitamin C nutrition in a group of school children 527
Dietary factors, some, affecting incidence and severity of hemorrhagic degeneration in young rats 633
Diets, high-calcium-low-phosphorus, effect of A.T.10 (dihydrotachysterol) on rickets in rats produced by 147
Diets, high fat and high carbohydrate, urinary excretion of thiamine on 411
Diets, milk, a study of the need for cobalt in dogs on 93
Diets, vitamin-low, quantitative study of vitamins in the rumen content of sheep and cows fed. III. Thiamin 163
Diets, vitamin-low, quantitative study of vitamins in the rumen content of sheep and cows fed. IV. Pantothenic acid 405
Dihydrotachysterol (A.T.10), effect of, on rickets in rats produced by high-calcium-low-phosphorus diets 147
Disease, deficiency, of foxes produced by feeding fish. B_1 avitaminosis analogous to Wernicke's disease of man 243
Disease, Wernicke's, of man, B_1 avitaminosis analogous to. A deficiency disease of foxes produced by feeding fish 243
Distribution of pantothenic acid in certain products of natural origin 193
Distribution of pyridoxine (vitamin B_6) in meat and meat products .. 589
Dog, heat production and blood and urine constituents after administration of l(—)histidine to 25
Dog, some observations of vitamin B_6 deficiency in 275
Dogs on milk diets, a study of the need for cobalt in 93
DOTY, JOHN R. See Eaton, Alonzo G. 25
DRURY, DOUGLAS. See Strouse, Solomon 599
Dry heat, effect of, upon anticataractogenic quality of certain proteins 115
DU BOIS, EUGENE F. See Hardy, James D. 383
DUFF, VIRGINIA B. See Bodansky, Meyer 179, 235
DWIGHT, JULIA. See Breiter, Herta 351
DWIGHT, JULIA. See Outhouse, Julia 565
Dynamic effects, specific, of amino acids and their bearing on the causes of specific dynamic effects of proteins 257

EATON, ALONZO G., AND JOHN R. DOTY. The heat production and blood and urine constituents after administration of l(—)histidine to the dog 25
Economy of food utilization, riboflavin as a factor in 453

Edestin, casein, lactalbumin, fibrin and gelatin in hemorrhagic degeneration in young rats, effect of supplementary choline, methionine and cystine and of 291
Editorial Review. Bioassay of vitamin K 1
Effect of A.T.10 (dihydrotachysterol) on rickets in rats produced by high-calcium-low-phosphorus diets 147
Effect of calcium and phosphorus on the metabolism of lead 541
Effect of certain carcinogens on vitamin A in the liver 431
Effect of diet on the pantothenic acid content of eggs 201
Effect of dry heat upon the anticataractogenic quality of certain proteins 115
Effect of hydrolytic products of casein and deaminized casein on the cataractogenic action of galactose 125
Effect of quantity of basal food intake upon utilization of vitamin A .. 13
Effect of supplementary choline, methionine and cystine and of casein, lactalbumin, fibrin, edestin and gelatin in hemorrhagic degeneration in young rats 291
Effect of various amounts of caffein on the gaseous exchange and the respiratory quotient in man 307
Effect on ossification, biologic response of chickens to certain organic acids and salts with particular reference to their 515
Effects of parathyroid deficiency and calcium and phosphorus of the diet on pregnant rats 179
Effects, specific dynamic, of amino acids and their bearing on the causes of specific dynamic effects of proteins 257
Eggs, effect of diet on pantothenic acid content of 201
Elvehjem, Conrad A. See Frost, Douglas Van Anden 93
Elvehjem, Conrad A. See Henderson, LaVell M. 589
Ensor, Charles. See Haldi, John ... 307

MURPHY, ELIZABETH. A study of vitamin C nutrition in a group of school children. Part II. Dietary evaluation 527
Muscle and liver, glycogen formation in, from glucose and fructose after extreme muscular exhaustion ... 489
Muscular exhaustion, extreme, glycogen formation in liver and muscle from glucose and fructose after 489

NATURAL origin, distribution of pantothenic acid in certain products of 193
Need for cobalt in dogs on milk diets, study of 93
Newfoundland and Labrador, a field study in. Vitamin A deficiency 461
Normal growing body at a given age, calcium content of 155
Normal pre-school children, four, iron balances on 101
Nucleic acid, yeast, phytic acid, soybean phosphatides and inorganic salts as sources of phosphorus for bone calcification 213
Nutrition, vitamin C, in a group of school children, study of. Part II. Dietary evaluation 527
Nutritional requirements during the latter half of life 45
NUTTER, PAULINE E. Depletion of tissue glycogen during fasting and fatigue and partial recovery without food 477
NUTTER, PAULINE E., AND JOHN R. MURLIN. Glycogen formation in liver and muscle from glucose and fructose after extreme muscular exhaustion 489

OBSERVATIONS, some, of vitamin B_6 deficiency in the dog 275
On the manner of acquisition of fluorine by mature teeth 35
Optimal calcium intake, life-time experiments upon the problem of 221
Optimum level of protein intake for the growth and fattening of swine ... 419
Organic acids and salts, certain, with particular reference to their effect on ossification, biologic response of chickens to 515
Origin, natural, distribution of pantothenic acid in certain products of 193
OSGOOD, HARLOW S. See McCay, Clive M. 45
Ossification, effect on, biological response of chickens to certain organic acids and salts, with particular reference to their 515
OUTHOUSE, JULIA, HERTA BREITER, ESTHER RUTHERFORD, JULIA DWIGHT, ROSALIND MILLS AND WILLIAMINA ARMSTRONG. The calcium requirement of man. Balance studies on seven adults .. 565
OUTHOUSE, JULIA. See Breiter, Herta 351

PANTOTHENIC acid content of eggs, effect of diet on 201
Pantothenic acid, distribution of, in certain products of natural origin 193
Pantothenic acid. Quantitative study of vitamins in the rumen content of sheep and cows fed vitamin-low diets. IV. 405
Pantothenic acid, requirement of mouse for, and for new factor of vitamin B complex 609
Parathyroid deficiency and calcium and phosphorus of the diet on pregnant rats, effects of 179
Parathyroid function and diet, relation of, to mineral composition of bones in rats at conclusion of pregnancy 235
Pathology, and symptoms. Severe calcium deficiency in growing rats. I. 61
PATRICK, HOMER. See Hogan, Albert G. 327
PEARSON, PAUL B. See Snell, Esmond E. 201
Perosis due to a vitamin deficiency 327
PERRY, MABEL W., AND WALLACE D. ARMSTRONG. On the manner of acquisition of fluorine by mature teeth 35
Phosphatides, soybean, phytic acid, yeast nucleic acid and inorganic salts as sources of phosphorus for bone calcification 213
Phosphorus and calcium, effect of, on metabolism of lead 541
Phosphorus and calcium of the diet, effects of parathyroid deficiency and, on pregnant rats 179
Phosphorus for bone calcification, phytic acid, yeast nucleic acid, soybean phosphatides and inorganic salts as sources of 213

Phosphorus (low)-high-calcium diets, effect of A.T.10 (dihydrotachysterol) on rickets in rats produced by 147
Pig, goat and sheep, skin temperatures of, under winter conditions 321
Plasma, cattle blood, carotene and vitamin A in, with observations on reproductive performance at restricted levels of carotene intake 135
Phytic acid, yeast nucleic acid, soybean phosphatides and inorganic salts as sources of phosphorus for bone calcification 213
PORTER, THELMA. Iron balances on four normal pre-school children .. 101
Potassium, and sodium, salts in the treatment of experimental diabetes and diabetes mellitus 599
Pregnancy, relation of parathyroid function and diet to mineral composition of bones in rats at conclusion of 235
Pregnant rats, effects of parathyroid deficiency and calcium and phosphorus of the diet on 179
Pre-school children, four normal, iron balances on 101
Preschool children, four, studies on vitamin C metabolism of 503
Protein concentrates, animal, chemical estimation of quality in 347
Protein intake for the growth and fattening of swine, optimum level of 419
Proteins, certain, effect of dry heat upon anticataractogenic quality of 115
Proteins, specific dynamic effects of amino acids and their bearing on the causes of specific dynamic effects of 257
Pyridoxine (vitamin B_6), distribution of, in meat and meat products ... 589

QUALITY in animal protein concentrates, chemical estimation of 347
Quantitative study of vitamins in the rumen content of sheep and cows fed vitamin-low diets. III. Thiamin 163
Quantitative study of vitamins in the rumen content of sheep and cows fed vitamin-low diets. IV. Pantothenic acid 405
Quantity of basal food intake upon the utilization of vitamin A, effect of 13
Quotient, respiratory, and gaseous exchange in man, effect of various amounts of caffeine on 307

RABBIT, uncomplicated vitamin E deficiency in, and its relation to the toxicity of cod liver oil 225
Rat, rate of absorption of various fatty acids by 373
Rats, bones in, at conclusion of pregnancy, relation of parathyroid function and diet to mineral composition of 235
Rats, growing, severe calcium deficiency in. I. Symptoms and pathology 61
Rats, growing, severe calcium deficiency in. II. Changes in chemical composition 75
Rats, magnesium deficient, fasting catabolism and food utilization of 363
Rats, pregnant, effects of parathyroid deficiency and calcium and phosphorus of the diet on 179
Rats, rickets in, produced by high-calcium-low-phosphorus diets, effect of A.T.10 (dihydrotachysterol) on 147
Rats, young, hemorrhagic degeneration in, effect of supplementary choline, methionine and cystine and of casein, lactalbumin, fibrin, edestin and gelatin in 291
Rats, young, some dietary factors affecting incidence and severity of hemorrhagic degeneration in 633
Recovery, partial, without food, depletion of tissue glycogen during fasting and fatigue and 477
REIFMAN, AARON. See Deuel, Harry J., Jr. 373
Relation of parathyroid function and diet to the mineral composition of the bones in rats at the conclusion of pregnancy 235
Reproductive performance at restricted levels of carotene intake, carotene and vitamin A in cattle blood plasma with observations on 135
Requirement, calcium, of adult man and the utilization of the calcium in milk, further experiments on 577
Requirement, calcium, of man: Balance studies on seven adults 565
Requirement of mouse for pantothenic acid and for a new factor of the vitamin B complex 609
Requirements, nutritional, during the latter half of life 45
Respiratory metabolism in fructosuria 553
Respiratory quotient, and gaseous exchange in man, effect of various amounts of caffeine on 307
Response, biologic, of chickens to certain organic acids and salts with particular reference to their effect on ossification 515
Riboflavin and thiamin in the rumen content of cattle, studies on ... 85
Riboflavin as a factor in economy of food utilization 453
Riboflavin contents of some typical fruits 175
